## WinXP SP2

Settings changes to allow Pop-ups required for CM/ECF to display.

If Internet explorer is currently open, please close all windows and open a new Internet explorer window.

On the toolbar go to "Tools\Internet Options"

Go to the "Privacy" tab

If the "Block Pop-ups" box is checked you can un-check it, allowing all pop-ups or follow the steps below to allow the necessary pop-ups for CM/ECF.

## Click the "Settings" button.

In the "Address of web site to allow:" type in "uscourts.gov" and click the "Add" button

After the "Add" button is pressed "\*.uscourts.gov" should show up in the "Allowed sites:" field. You can now press the "Close" button and then click the "Apply button on the "Internet Options" screen. This will bring you back to Internet explorer. You should now close this window and open a new Internet Explorer window, which now should have the saved settings allowing the necessary pop-ups within CM/ECF.
